Expand. Explore. Experience.

September 28, 2005

AKGold Internet helped give CEA the visual interface that aligns our website with our core business functions and supports our business process each step of the way. From our online application, to the student portal to the website all of which are intuitive, vibrant and clear, Andrew worked hand in hand with our organization to understand our business and position CEA right at the top in the web arena for study abroad programs. Our old website made me cringe and our new one is a true source of pride for CEA. In addition to working flexibly with our schedule, AKGold completed the project on time and in budget.

A handwritten signature in black ink, appearing to read "B. Boubek", written in a cursive style.

Brian J. Boubek
Executive Director
Cultural Experiences Abroad (CEA)
